

Your chalkboard jar labels

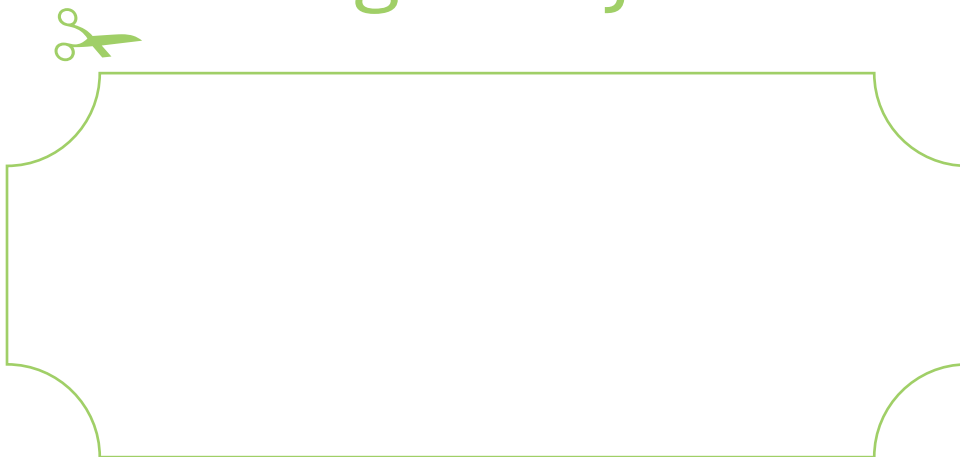

Buttoned Up.™

buttoned up®

Organize your home and make your own “chalk ware” with chalkboard labels! First, you need to get [WALLIES Peel & Stick Chalkboard Panels](#). Then, print this pdf on a slightly thick paper (although any paper will do) and cut out the labels using an exacto knife and ruler to get straight lines. The large label is 5" wide and sized to fit on gallon jars; the small label is 3.5" wide and sized to fit on quart jars. Once the labels are cut out, trace them onto your chalkboard sheet and cut them out in the same fashion. Peel off the paper backing and stick onto your jars. Lastly, grab your chalk and start labeling!
