Your child needs to be picked up early, is going home with another kid, was late to school, or won't be in next week. Yeah, you need a note for that. Dashing one off on the nearest scrap of paper doesn't look very official, and may not pass muster with skeptical teachers. Get your notes to school buttoned up with these pre-formatted teacher notes. Print out a few and keep them in a kitchen drawer so they're always at the ready.
